Evaluating Production Across a Spectrum: Lessons Of Our Proprietary Ultimate Quantitative Baseline Stat

Our "UQB" category (Ultimate Quantitative Baseline) on our draft board calculates the standard deviation from the mean in all relevant hockey categories. In simple English, imagine a spectrum going across from left to right, with negative numbers on the left side, a "zero" in the middle and positive numbers on the right side. We utilize this statistic for football, baseball, basketball, hoops and NASCAR as well as hockey. For hockey, we use all of the standard fantasy categories listed on the draft board to factor in for this statistical compilation. A player's performance in each category is plotted on one of these spectrums, with the most valuable players putting up most of their numbers on the most of their numbers on the positive side. Then, we add up the totals of every category, positive and negative. By using this tool, we can identify not merely how they performed, but how valuable their performances were in each category. Truly, this statistic serves as the ultimate baseline for the previous season's production.

Scott Pullins: "I have spent my career, both as an attorney, and otherwise, in roles where I help people break down and solve complex problems. After a consultation, you will be put on the path toward resolution of your issue. I will either recommend that you retain me to resolve your issue, I will recommend a trusted colleague, or I will offer some other solution, sometimes even free or at a lower cost than a private attorney, in order to assist you."

Suggested League Guidelines

We recommend that you hold your auction or serpentine-style draft with 10 owners, selecting 18 players (6 defensemen, 3 goalies, 3 left wings, 3 centers, 3 right wings). In case of an auction, use a financial system that allots an average of \$11 per player.

Our preferred style of play is head-to-head roto, in which teams compete on a week-to-week head-up basis. Recommended categories are points, goals, assists, penalty minutes and plus-minus for forwards and defensemen and wins, least losses, shutouts, goals-against-average and save percentage for goalies. A rotating tiebreaker category should be utilized in the case of a 5-5 category tie. The starting lineup should consist of 2 goalies, 2 left wings, 2 centers, 2 right wings and 4 defensemen.

Don't Be That Guy

At your draft or auction, Don't Be That Guy who:

^ Doesn't properly understand his league's scoring system. Have the specific parameters down before you go to select your players.

^ Relies on a publication that doesn't have a draft board. Can you imagine such a thing?

^ Gets caught at the tail end of a run at a position: specifically, #2 defensemen should not be confused with the #1s.

^ Doesn't put enough emphasis on goal-scorers as opposed to assist-tallies. As is always the case in fantasy sports, scarcity leads to value.

2021 FDH Hockey Mock Draft Analysis

Round 1: Other than Samm going D with her pick, it was mostly chalk.
Round 2: With so many top forwards already off the board, only Russ, Dave, Nate, Mike V and Rick opted to go there again.
Round 3: In terms of covering bases at all three positions, only Jason, Jeff and Mike P went there.
Round 4: Russ (with a Ranger, no less), picked up one of the top values so far.
Round 5: Russ bounced back with another outstanding value.
Round 6: Dave and Russ were the only owners able to get six players in the FDH Top 50 Overall.
Round 7: It's the Tkachuk combo for Rick!
Round 8: Dave went late on his first goalie, but early on his second and that combo could be potent.
Rounds 9-12: Price, Karlsson, Burns, Klingberg, Weber, Tarasenko: how the mighty have fallen!

Steven Stamkos: A Born Leader

By Russ Cohen/Sportsology

Going back to 2008, when Steven Stamkos was picked first overall, the Tampa Bay Lightning had new hope. Their 2004 Stanley Cup run was in the rearview mirror, and a new player was selected. Was he selected to lead them? Probably, he's always had those capabilities.

"You knew once we got that first goal, Vasy was going to shut the door," Stamkos stated. "It's amazing the confidence we had coming home after a tough overtime loss."

I was at that draft in Ottawa, when Drew Doughty was selected 2nd overall by the Los Angeles Kings. There was never any doubt, at least in my mind that Stamkos was going first. Stamkos has always been in the shadow of Sidney Crosby with some members of the media. They're both Canadian centers, but they're different players. Stamkos has averaged 1.03 points per game, in this era, that's tremendous after 13 seasons. Crosby is at 1.28, enough said, there is no comparison and never should be.

"I haven't slept very well in the last week," Stamkos revealed. "It's so stressful going through these situations. That was the toughest game for me. We knew their backs were against the wall. We are on home ice. You want to win so

bad, and you're so pissed off about the last game. You reset, and you use everything as motivation."

Stamkos has always exhibited leadership abilities. He wore the "A" for the Sarnia Sting, and he weathered the storm when his coach, Barry Melrose chose to play him less than 10 minutes and night, no power play in his rookie season, and got fired. That was the big break for Stamkos, who became the full-fledged captain for the 2013-14 season (he wore the "A" going back to 2011-12). If you want to lead, most times, leading by example is the way and Stamkos can score big goals. He has 439 in the regular season and 32 in the playoffs. Even this year, under a lot of criticism by some fans and media, he still managed to score 18 points in 23 games. Considering he played in only one postseason game last year and got that all-important goal in Game 3. It came off his first shot. That sparked his team.

"We had an opportunity to win the last game in Montreal and we didn't," Stamkos preached. "They get some life. They come in here. We said it's an opportunity to win in front of our fans. It's an opportunity to win in front of our family."

"Those two groups didn't get a chance to celebrate with us last year. That was motivation for the group we have knowing realistically that this is the last time all of us are going to play together. It was amazing. There was no doubt in my mind we would play a lot better than we did in Montreal. Win or lose. Look at our record after a loss. It's unheard of at 14-0 in professional sports. I can't be prouder of this group."

Stamkos is going to be a Hall of Famer. He will get 500 goals, he's only 31, and every one of those players is in the Hall. He's won two consecutive Stanley Cups, and he will go for three. Let's not overlook how great he's been because he's on a super-talented team. My father said, be a leader, not a follower, it's hard to find a leader like Stamkos.
