THE TOP 75 PLAYERS IN PRO BASKETBALL HISTORY

The NBA's 75th Anniversary has prompted a wave of Best-Of lists, but few with the substance to reinforce the selections. Authors Rick Morris, Ben Chew and Russ Cohen came together to create a list of the top 75 pro basketball players ever, with evidence to justify the placement of each -- as well as biographical details, comparisons of various legends, little-known-but-interesting tidbits, what-if scenarios and much more. Additionally, the book includes our year-by-year ranking of the top players in pro basketball and rosters for hypothetical "Olympic Dream Teams" had they existed prior to 1992. This is a book that is crafted for sports fans who are interested in learning more about the rich history of pro basketball. Available on Amazon.com

Pullins Law Firm LLC: PullinsLaw.com

Scott Pullins: "I have spent my career, both as an attorney, and otherwise, in roles where I help people break down and solve complex problems. After a consultation, you will be put on the path toward resolution of your issue. I will either recommend that you retain me to resolve your issue, I will recommend a trusted colleague, or I will offer some other solution, sometimes even free or at a lower cost than a private attorney, in order to assist you."

Evaluating Production Across a Spectrum: Lessons of our Proprietary Ultimate Quantitative Baseline Stat

Our "UQB" category (Ultimate Quantitative Baseline) on our draft board calculates the standard deviation from the mean in all relevant hockey categories. In simple English, imagine a spectrum going across from left to right, with negative numbers on the left side, a "zero" in the middle and positive numbers on the right.

We utilize this statistic for football, baseball, basketball, hockey and NASCAR as well as hoops. For hockey, we use all of the standard fantasy categories listed on the draft board to factor in for this statistical compilation. A player's performance in each category is plotted on one of these spectrums, with the most valuable players putting up most of their numbers on the most of their numbers on the positive side. Then, we add up the totals of every category, positive and negative. By using this tool, we can identify not merely how they performed, but how valuable their performances were in each category. Truly, this statistic serves as the ultimate baseline for the previous season's production.

College Hoops Fantasy Team Game Suggested Guidelines & Draft Board

- [^] A standard serpentine-style draft serves as the best place to begin.
- ^ The ideal distribution of talent would be as follows: 5 teams drafted by 8 owners, 6 teams drafted by 7 owners, 7 teams drafted by 6 owners or 8 teams drafted by 5 owners.
- ^ Points should be divided equally between success in the regular season/conference tournaments and in the NCAA tournament.
- ^ Regular season point distribution should come in the form of a "snapshot" of the Associated Press Top 25 poll on the following dates: January 2, January 16, January 30, February 13 and February 27. On those dates, points would be allocated in the following manner: 1st place (100 points), 2nd place (94 points), 3rd place (91 points), 4th place (88 points), 5th place (85 points), 6th place (78 points), 7th place (75 points), 8th place (72 points), 9th place (68 points), 10th place (65 points), 11th place (58 points), 12th place (55 points), 13th place (52 points), 14th place (48 points), 15th place (45 points), 16th place (40 points), 17th place (36 points), 18th place (32 points), 19th place (28 points), 20th place (25 points), 21th place (22 points), 22nd place (18 points), 23rd place (15 points), 24th place (12 points), 25th place (10 points). Additionally, 90 points are to be awarded to the winner of a regular season conference title and an additional 90 points to the winner of a conference title tournament.
- ^ The other half of the points, in the form of NCAA tournament points, are to be distributed as follows: 50 points for qualifying for the tournament, 100 points for one of your teams qualifying as a #1, #2, #3, #4 seed in any region, 40 points for qualifying as a #5, #6, #7 or #8 seed in any region, 40 points for winning a first-round tournament game, 75 points for winning a second-round tournament game, 150 points for winning a third-round tournament game, 175 for winning a regional final game, 250 points for winning a national semifinal game and 500 points for winning the national title.

As We Predicted, More Room At The Top In The 2020s

By Rick Morris/The FDH Lounge

As noted in this space a year ago, here's the number of different teams represented in the NBA Finals each decade: eight in the 1950s, five in the 1960s, 10 in the 1970s, five in the 1980s, 10 in the 1990s, 12 in the 2000s and nine in the 2010s. We forecast an era in the 2020s with more (relative) parity at the top as top teams from the 2010s are still hanging around as new powers are emerging in the 2020s. This year's NBA Finals reflected this dynamic with Golden State as a holdover team and young Boston breaking through. And there are now six different teams already represented in the Finals this decade (surpassing the 1960s and 1980s already) - the first three-year stretch with six different teams in the Finals since 2006-08 and only the second since 1976-78!

The post-LeBron teams in Miami and Cleveland, although both strong contenders again, bear no resemblance to the teams that he led to the Finals, so they count as fresh faces. Toronto is the only champion from the East in the 2010s that is even partially intact, with Milwaukee taking the 2021 title and Boston, Brooklyn and Philadelphia among the teams looking to break through.

Golden State is the big carryover in the West from the 2010s, with the Lakers taking the title in 2020 and Phoenix, Dallas, Denver, Utah, Memphis and the LA Clippers looming as significant teams. This slow-motion changing of the guard between the stars of the 2010s and the 2020s, which probably started as far back as the Orlando bubble, is ongoing and fueling one of the most exciting periods in the history of the league.

THE TOP 75 PLAYERS IN PRO BASKETBALL HISTORY

The NBA's 75th Anniversary has prompted a wave of Best-Of lists, but few with the substance to reinforce the selections. **Authors Rick Morris, Ben Chew and Russ** Cohen came together to create a list of the top 75 pro basketball players ever, with evidence to justify the placement of each -as well as biographical details, comparisons of various legends, little-known-butinteresting tidbits, what-if scenarios and much more. Additionally, the book includes our year-by-year ranking of the top players in pro basketball and rosters for hypothetical "Olympic Dream Teams" had they existed prior to 1992. This is a book that is crafted for sports fans who are interested in learning more about the rich history of pro basketball. Available on Amazon.com

The NBA's 75th Anniversary has prompted a wave of Best-Of lists, but few with the substance to reinforce the selections. Authors Rick Morris, Ben Chew and Russ Cohen came together to create a list of the top 75 pro basketball players ever, with evidence to justify the placement of each -- as well as biographical details, comparisons of various legends, little-known-but-interesting tidbits, what-if scenarios and much more. Additionally, the book includes our year-by-year ranking of the top players in pro basketball and rosters for hypothetical "Olympic Dream Teams" had they existed prior to 1992. This is a book that is crafted for sports fans who are interested in learning more about the rich history of pro basketball. Available on Amazon.com

"I have spent my career, both as an attorney, and otherwise, in roles where I help people break down and solve complex problems. After a consultation, you will be put on the path toward resolution of your issue. I will either recommend that you retain me to resolve your issue, I recommend a trusted colleague, or I will offer some other solution, sometimes even free or at a lower cost than a private attorney, in order to assist you."

2021-22 Team UQB Rankings

FantasyDrafthelp.com and The FDH Lounge are expanding the UQB concept to team sports. Our rankings are a mashup of the following measures: a strength of schedule metric, offensive rating, defensive rating, EFG, TS%, Asst/TO ratio, 3% and a modified Win Share formula.

2 Golden State	17 LA Clippers
3 Miami	18 San Antonio

Top 10 For The Next 10

The FDH Top 10 for the Next 10 is a list attempting to identify the best players in the league -- not necessarily in a pure fantasy sense -- over the course of the entire next decade. It's not a pure 25-and-under draft, but it skews heavily in that direction because most big-time stars are past their primes in their late 30s. Players who are both very young and very skilled already have the biggest edges.

THE TOP 75 PLAYERS IN PRO BASKETBALL HISTORY

The NBA's 75th Anniversary has prompted a wave of Best-Of lists, but few with the substance to reinforce the selections. Authors Rick Morris, Ben Chew and Russ Cohen came together to create a list of the top 75 pro basketball players ever, with evidence to justify the placement of each -- as well as biographical details, comparisons of various legends, little-known-but-interesting tidbits, what-if scenarios and much more. Additionally, the book includes our year-by-year ranking of the top players in pro basketball and rosters for hypothetical "Olympic Dream Teams" had they existed prior to 1992. This is a book that is crafted for sports fans who are interested in learning more about the rich history of pro basketball. Available on
