Suggested Guidelines for World Cup Fantasy League

The ideal ratio is five owners drafting five teams in a standard serpentine draft. Scoring should be as follows:

- ^ 3 points when a team qualifies for the Round of 16
- ^ an additional 5 points once a team qualifies for the quarterfinals
- ^ an additional 7 points once a team qualifies for the semifinals
- ^ an additional 10 points once a team qualifies for the finals
- ^ an additional 12 points for the championship team
