Pro Football Draft Overview

The Super Bowl Champs Welcome The Football World

The team by definition least in need of draft reinforcement will be hosting the 2023 NFL Draft from April 27-29 as the Super Bowl Champion Chiefs welcome the 31 teams seeking to take their crown next season. While football fans aren't used to seeing the draft play out in those surroundings – it never has before – this draft represents a return to normalcy after the historic QB drought of '22. Alabama's Bryce Young, OSU's CJ Stroud, Kentucky's Will Levis and Florida's Anthony Richardson could all in the Top 10 with Young almost a lock for the Top 5. Other strong favorites for the Top 5 are, predictably, defensive monsters from the two predominant SEC schools, Alabama OLB Will Anderson Jr and Georgia DT Jalen Carter. Aside from those players, the Top 10 will

likely be filled in by some combination of the following: Big 10 OTs Peter Skoronski (Northwestern), and Paris Johnson (Ohio State), Texas RB Bijan Robinson, Iowa DE Lukas Van Ness, Alabama safety Brian Branch and any of a tremendous group of cornerbacks: Christian Gonzalez of Oregon, Devon Witherspoon of Illinois, Joey Porter Jr. of Penn State, Deonte Banks of Maryland and Kelee Ringo of Georgia.

In addition to the quarterbacks, the defensive tackle, cornerback, tight end and edge positions are dripping with excellent talent and depth and the wide receiver position continues a near decade-long run of building the deepest crop at the position in history.

Catch the great coverage on Night 1 of the pro football draft, Thursday April 27 at YouTube.com/TheFDHLounge as FDH Managing Partner Rick Morris joins up with "The Scout" Ken Becks of 1stDownScouting.com to break down all of the action in real time!

THE TOP 75 PLAYERS IN PRO BASKETBALL HISTORY

The NBA's 75th Anniversary has prompted a wave of Best-Of lists, but few with the substance to reinforce the selections. Authors Rick Morris, Ben Chew and Russ Cohen came together to create a list of the top 75 pro basketball players ever, with evidence to justify the placement of each -- as well as biographical details, comparisons of various legends, little-known-but-interesting tidbits, what-if scenarios and much more. Additionally, the book includes our year-by-year ranking of the top players in pro basketball and rosters for hypothetical "Olympic Dream Teams" had they existed prior to 1992. This is a book that is crafted for sports fans who are interested in learning more about the rich history of pro basketball.

Draft Play-Along Game

We at FantasyDrafthelp.com have devised a contest to help you and your friends measure your acumen on Draft Day. It's the FantasyDrafthelp.com Mock Draft Game (credit to Fantasy Drafthelp.com contributor Bob Benak for inventing the game). Each participant submits a mock draft before the proceedings ... and then all parties compete in a separate "live draft competition."

Each board is scored separately, but the scores of the two are compiled to crown the Grand Champion of Draft Day. Here's the scoring system:

Picks #1-4 are weighted at one point apiece.
 Picks #5-8 are weighted at two points apiece.
 Picks #9-12 are weighted at three points apiece.
 Picks #13-16 are weighted at four points apiece.
 Picks #17-20 are weighted at five points apiece.
 Picks #21-24 are weighted at six points apiece.
 Picks #25-28 are weighted at seven points apiece.
 Picks #29-32 are weighted at eight points apiece

Players may "roll over" their picks from the completed mock draft to the live draft if a player remains on the board ... or they may cover themselves with another pick. Example: a player has Indy taking CJ Stroud with the #4 pick on the mock draft they turned in at the outset. That would count for two points if the pick is correct. If Stroud is still on the board when the Colts are on the clock, the player is not obligated to pick Stroud during the live draft. He may "roll over" the pick, choosing to try to win two points in both the live and completed mock draft categories. Or he may try to cover himself with another pick. For example, should he correctly pick Will Levis in the live draft part of the competition, he would gain the two points in the live draft but win no points in the completed mock draft part of the competition, in which he incorrectly picked Stroud. So strategy is at a premium during this competition. This game also puts great emphasis on correctly making picks later in the first round, when chances for success are the most difficult. Picking a player accurately in the later part of the first round on both the completed mock draft and the live mock draft can ensure a thrilling, come-from-behind victory. If you and your friends want to take your enjoyment of Draft Day to the next level by competing and strategizing along with the wizards of the NFL, try our game and enjoy!

 "I have spent my career, both as an attorney, and otherwise, in roles where I help people break down and solve complex problems. After a consultation, you will be put on the path toward resolution of your issue. I will either recommend that you retain me to resolve your issue, I will recommend a trusted colleague, or I will offer some other solution, sometimes even free or at a lower cost than a private attorney, in order to assist you."

2023 Rookie Class Fantasy Analysis

The headline skill position players in a draft always are the ones lining up under center and while they are increasingly capable of coming in and producing wins quickly, they are still rarely viable candidates for QB1 in their rookie season. As such, Bryce Young, CJ Stroud, Will Levis and (to whatever extent) Anthony Richardson are best left for the later rounds of your fantasy draft. Those in deep keeper leagues might consider stashing the injured Hendon Hooker.

Conversely, at RB, Bijan Robinson could well qualify as RB1 with his blend of size and speed. Jahmyr Gibbs is the rare mid-size back who could profile as a three-down back, which is certainly valuable. Smaller backs Devon Achane and DeWayne McBride and big boy Roschon Johnson could all slot at RB3.

Jaxon Smith-Njigba may be sliding in the draft due to his durability issues in 2022 – as well as his eye-catching decision to sit out of the College Football Playoff to avoid further injury before the draft – but he rates with Quentin Johnston and Jordan Addison as potential fantasy starters in Year One. There are quite a few others who profile as at least spot starters this year: Kayshon Boutte, Josh Downs, Marvin Mims, Zay Flowers, Jalin Hyatt and Rashee Rice.

Michael Mayer is the rare TE who could become a slam-dunk fantasy starter in his first year. Dalton Kincaid and Darnell Washington could well slot as TE1 this season.

First Look Ahead to 2024 Pro Football Draft

The 2024 NFL Draft looks at this time to be headlined by the 2022 Heisman Trophy winner, USC QB Caleb Williams and the player felt by many to be the greatest star of the 2022 season, OSU WR Marvin Harrison Jr. Additional players at these positions, as well as teammates of Harrison's, should figure into the top of an excellent 2024 crop.

Other top QBs at this time appear to be Drake Maye of UNC and KJ Jefferson of Arkansas. Other top WRs include Xavier Worthy of Texas, Troy Franklin of Oregon, Adonai Mitchell of Georgia and Emeka Egbuka of Ohio State. And additional Buckeyes include RB TreVeyon Henderson, CB Denzel Burke, G Donovan Jackson, DT Michael Hall Jr and DE JT Tuimolalo.

Some of the other elite players in the draft are Georgia TE Brock Bowers, Texas TE Ja'Tavion Sanders, Mississippi TE Michael Trigg, Miami S James Williams, Clemson S Andrew Mukuba, Alabama CB Kool-Aid McKinstry, Penn State OT Olumuyiwa Fashanu, Alabama DE Dallas Turner, Florida State DE, Jared Verse, Wisconsin RB Braelon Allen, Georgia LB Smael Mondon Jr and LSU DT Maason Smith.

THE TOP 75 PLAYERS IN PRO BASKETBALL HISTORY

The NBA's 75th Anniversary has prompted a wave of Best-Of lists, but few with the substance to reinforce the selections. Authors Rick Morris, Ben Chew and Russ Cohen came together to create a list of the top 75 pro basketball players ever, with evidence to justify the placement of each -- as well as biographical details, comparisons of various legends, little-known-but-interesting tidbits, what-if scenarios and much more. Additionally, the book includes our year-by-year ranking of the top players in pro basketball and rosters for hypothetical "Olympic Dream Teams" had they existed prior to 1992. This is a book that is crafted for sports fans who are interested in learning more about the rich history of pro basketball. Available on Amazon.com

THE TOP 75 PLAYERS IN PRO BASKETBALL HISTORY

The NBA's 75th Anniversary has prompted a wave of Best-

Of lists, but few with the substance to reinforce the selections. Authors Rick Morris, Ben Chew and Russ Cohen came together to create a list of the top 75 pro basketball players ever, with evidence to justify the placement of each -- as well as biographical details, comparisons of various legends, little-known-but-interesting tidbits, what-if scenarios and much more.

Additionally, the book includes our year-by-year ranking of the top players in pro basketball and rosters for hypothetical "Olympic Dream Teams" had they existed prior to 1992. This is a book that is crafted for sports fans who are interested in learning more about the rich history of pro basketball. Available on Amazon.com

Why Value Matters In Fantasy & Pro Sports Drafts

By Rick Morris

On our FANTASYDRAFTHELP.COM INSIDER webcasts, we've discussed this point many times, but we're continually reminded of the need to readdress it: the very real link between fantasy sports drafts and the so-called real kind.

Years ago, when the Buffalo Bills selected Donte Whitner with the eighth overall pick at a time when he was considered a fringe Top 20 player at best, FDH Senior Editor Jason Jones and I ridiculed the pick in a real-time webcast.

We explained that Marv Levy, who was new to the Buffalo front office, clearly had no concept of value. Top10 picks must become franchise players at their positions. If, for whatever reason, you are fixated on a player unworthy of the draft slot, trade back and obtain the value collectively, through the desired player and additional picks, but always get value for your pick.

And if a Top 10 pick must become a franchise player, then a Top 5 pick must become one of the elite players in the league. For a team like the Browns that squandered numerous draft picks under the auspices of such luminaries as Butch Davis, Shoebox Pete Garcia, Eric Mangini, Mike Lombardi, Ray Farmer and Sashi Brown, the tenth overall pick in the draft has to be a home run and cannot be used on a player not deemed safe enough by the collective brainpower of NFL personnel people. There is no margin for error.

We at FDH don't have to educate skilled fantasy sports owners on the concept of value. This is something they know, or at the very least intuit, as they go through their draft or auction preparation. We always say that you win by obtaining value with every pick. While that ideal is almost impossible, you have to come as close as you can. That means that your high picks have to perform at the level forecasted and your mid-round and lower-round picks must outperform their draft slots. We have always emphasized that the same precept holds true in professional sports drafts. Winning organizations make the most of their draft picks and they know how to proceed in a measured fashion. They do not panic.
