## THE TOP 75 PLAYERS IN PRO BASKETBALL HISTORY

The NBA's 75th Anniversary has prompted a wave of Best-Of lists, but few with the substance to reinforce the selections.

Authors Rick Morris, Ben Chew and Russ Cohen came together to create a list of the top 75 pro basketball players ever, with evidence to justify the placement of each -- as well as

biographical details, comparisons of various legends, little-known-but-interesting tidbits, what-if scenarios and much more.

Additionally, the book includes our year-by-year ranking of the top players in pro basketball and rosters for hypothetical

"Olympic Dream Teams" had they existed prior to 1992. This is a book that is crafted for sports fans who are interested in

learning more about the rich history of pro basketball. Available on Amazon.com

## Evaluating Production Across a Spectrum: Lessons Of Our Proprietary Ultimate Quantitative Baseline Stat

Our "UQB" category (Ultimate Quantitative Baseline) on our draft board calculates the standard deviation from the mean in all relevant hockey categories. In simple English, imagine a spectrum going across from left to right, with negative numbers on the left side, a "zero" in the middle and positive numbers on the right side. We utilize this statistic for football, baseball, basketball, hoops and NASCAR as well as hockey. For hockey, we use all of the standard fantasy categories listed on the draft board to factor in for this statistical compilation. A player's performance in each category is plotted on one of these spectrums, with the most valuable players putting up most of their numbers on the most of their numbers on the positive side. Then, we add up the totals of every category, positive and negative. By using this tool, we can identify not merely how they performed, but how valuable their performances were in each category. Truly, this statistic serves as the ultimate baseline for the previous season's production.

## 2024-25 Fantasy Overview

^ We said this a year ago: "as big scorers become ever more plentiful, paradoxically, the cutoff points on the top two tiers are higher – because fewer players are able to differentiate themselves above the rest in terms of points, goals or plus/minus. Big-scoring forwards are even more plentiful now, such that even being a point-a-game player does not render a player elite anymore absent other assets in their game!" Still applies.

^ Depth on defense is far deeper on the 2<sup>nd</sup>, 3<sup>rd</sup> and 4<sup>th</sup> levels than last year, but much the same overall.

^ The second tier at goalie is a bit deeper than last year, but is otherwise the same.

# Suggested League Guidelines

We recommend that you hold your auction or serpentine-style draft with 10 owners, selecting 18 players (6 defensemen, 3 goalies, 3 left wings, 3 centers, 3 right wings). In case of an auction, use a financial system that allots an average of \$11 per player.

Our preferred style of play is head-to-head roto, in which teams compete on a week-to-week head-up basis. Recommended categories are points, goals, assists, penalty minutes and plus-minus for forwards and defensemen and wins, least losses, shutouts, goals-against-average and save percentage for goalies. A rotating tiebreaker category should be utilized in the case of a 5-5 category tie. The starting lineup should consist of 2 goalies, 2 left wings, 2 centers, 2 right wings and 4 defensemen.

## Don't Be That Guy

At your draft or auction, Don't Be That Guy who:

^ Doesn't properly understand his league's scoring system. Have the specific parameters down before you go to select your players.

^ Relies on a publication that doesn't have a draft board. Can you imagine such a thing?

^ Gets caught at the tail end of a run at a position: specifically, #2 defensemen should not be confused with the #1s.

^ Doesn't put enough emphasis on goal-scorers as opposed to assist-tallies. As is always the case in fantasy sports, scarcity leads to value.

## 2024 FDH Hockey Mock Draft Analysis

**Round 1:** No real surprises.

**Round 2:** Mike V gets a mild drop in Panarin. Nobody wanted to go F/F, huh?

**Round 3:** Nice value for Rick. Jeff, Russ, Rick and Samm have covered all three positions, while Mike P gets his second D.

**Round 4:** Gee, Jason really likes Stamkos in his new location! Mike V was saavy to jump on Soros.

**Round 5:** Nate, Mike P and Mike V went off the board a bit.

**Round 6:** There's some offense that dropped here: Ovechkin, Marchand, Stutzle, Forsberg & Mika.

**Round 7:** Thompson could be a really good value for Jake.

**Rounds 8-12:** How the mighty have fallen: Carlson, Tavares, Letang, Scheifele, Laine, MALKIN!

### THE TOP 75 PLAYERS IN PRO BASKETBALL HISTORY

The NBA's 75th Anniversary has  
prompted a wave of Best-Of lists, but few  
with the substance to reinforce the  
selections. Authors Rick Morris, Ben  
Chew and Russ Cohen came together to  
create a list of the top 75 pro basketball  
players ever, with evidence to justify the  
placement of each -- as well as  
biographical details, comparisons of  
various legends, little-known-but-  
interesting tidbits, what-if scenarios and  
much more. Additionally, the book  
includes our year-by-year ranking of the  
top players in pro basketball and rosters  
for hypothetical "Olympic Dream Teams"  
had they existed prior to 1992. This is a  
book that is crafted for sports fans who  
are interested in learning more about the  
rich history of pro basketball. Available

## THE TOP 75 PLAYERS IN PRO BASKETBALL HISTORY

The NBA's 75th Anniversary has prompted a wave of Best-Of lists, but few with the substance to reinforce the selections. Authors Rick Morris, Ben Chew and Russ Cohen came together to create a list of the top 75 pro basketball players ever, with evidence to justify the placement of each -- as well as biographical details, comparisons of various legends, little-known-but-interesting tidbits, what-if scenarios and much more. Additionally, the book includes our year-by-year ranking of the top players in pro basketball and rosters for hypothetical "Olympic Dream Teams" had they existed prior to 1992. This is a book that is crafted for sports fans who are interested in learning more about the rich history of pro basketball.
