

2025 FDH NFL Pre-Free Agency Needs Assessment

These needs are created from an aggregate of team needs that are noted by five significant media sources. It is important to note that the scores and order of priority DO NOT NECESSARILY correlate with the opinions of FDH. The biggest draft priorities list is also a function of this average and NOT NECESSARILY our assessment of the biggest needs that each team has (with an example of where we differ being Cleveland's QB need only being in a tie for 8th on the list). Teams have on average 7.78 holes per team, which is decently up from 7 holes per team.
