NOTES: Teams are ranked in four categories: value accrued from players on the Jason Jones Big Board, value accrued from those picks plus the extent to which those teams addressed their most glaring needs, the percentage of team needs filled by players on the Jason Jones Big Board and the post-draft FDH Team Power Rankings. Additionally, remaining team needs are listed with the new power rankings.

After the 2021 draft, teams had 5.03 holes on average, dropping to 4.97 in 2022, 4.44 in 2023, all the way to 3.97 in 2024 and 3.88 in 2025.

2026 continued this trend with team needs after the draft at an average of only 3.69! Interestingly, many of the teams with less needs do not factor as highly in our present rankings, suggesting that some of their needs are barely filled and that teams ranked above them have great depth. holes are filled by using a pick in the first four rounds on a position of need. In short, the league as a whole has improved at filling needs in the draft over the past five years, thus increasing the price to be paid for teams that have not been as proficient.
